2nd OncoZag Conference

WELCOME MESSAGE

Welcome to the **2nd OncoZag conference** focusing on Oncology practice challenges!

We are excited to invite you to join us at the **Helnan Land Mark Hotel on June 13, 2024**, for a day dedicated to addressing the complexities and obstacles faced in the field of Oncology. Get ready for enlightening discussions, and the opportunity to connect with fellow practitioners.

We look forward to your participation!
See you there!

Prof. Hassan Ashour
Conference President

2nd OncoZag Conference

09:30 - 10:30

REGISTRATION

10:30 - 11:50

SESSION 1: HEAD AND NECK CANCER

Chairpersons (alphabetical):

Prof. Ahmed AbdElHamid - Prof. Abbass Sarhan - Prof. Hanaa Rashid - Prof. Khaled Saad - Prof. Maher Aidaros
Prof. Mohamed Abdelgwad - Prof. Mostafa ElAidi - Prof. Taha Abdelwahab - Prof. Wesam Amr

Time	Subject
10:30 - 10:50	Updates in Management of LASCCHN Speaker (Prof. Maher Aidros) Moderator (Prof. Shereen ElShorbagy) MERCK
10:50 - 11:10	Head and neck squamous cell carcinoma (HNSCC), Fate & Prognosis (Prof. Wael ElShelfa)
11:10 - 11:30	Role of radioactive iodine in thyroid cancer (Prof. Shima Farouk)
11:30 - 11:50	Role of radiotherapy with curative intent oral cavity cancer (Prof. Mohamed Wahba)

SANDOZ

Gefitinib HEXAL® 250 mg
film coated tablets

RIXATHON®
rituximab 100mg, 500mg

Docetaxel Ebewe®
Docetaxel 20 mg 80 mg
Concentrate for
solution for infusion

 **ZARZIO**
filgrastim 30 MU

 **Gemcitabine Sandoz**
Gemcitabine 200 mg , 1g , 2g

2nd OncoZag Conference

11:50 - 13:50 SESSION 2: BREAST CANCER

Chairpersons(alphabetical):

Prof. Ahmed ElHossiny - Prof. Dalia Hamouda - Prof. Galal AboElNagah - Prof. Hassan Ashour - Prof. Khaled Safwat
 Prof. Lobna AbdElAziz - Prof. Mohammed Elkilany - Prof. Mohamed Mansy - Prof. Reham Safwat

Time	Subject
11:50 - 12:10	Non-mass breast microcalcifications (Dr Marwa ElKhatib)
12:10 - 12:30	Oncoplastic breast surgery, quadrant by quadrant suitable techniques (Prof. Galal AboElNagah)
12:30 - 12:50	Update in management of axilla in breast cancer (Prof. Ibrahim Zayat)
12:50 - 13:20	Adjuvant hormonal treatment-area of unmet need (Prof. Ahmed Obaya) 
13:20 - 13:50	The Profound Benefit of Adjuvant Abemaciclib for High-Risk HR+ve HER2-ve EBC (Prof. Mai Ezz Eldin) 
13:50 - 14:30	Coffee Break 
14:30 - 15:00	<p>Opening Ceremony</p> <p>Prof.Mohammed Farid Prof.Khaled Safwat Prof.Hassan Ashour Prof.Ahmed obaya Prof.Shereen ElShorbagy Prof.Mohamed Mansy</p>

CAPSURE™
Permanent Fixation System

BAIRD
DAVOL INC.

Permanent Fixation Redefined

Advancing the Fixation Experience

Recipient of 2015 SLS® Innovations
of the Year recognition.

SOFT TISSUE REPAIR

Right Procedure. Right Product. Right Outcome.

2nd OncoZag Conference

15:00 - 17:40 **SESSION 3: GIT CANCER**

Chairpersons (alphabetical):

Prof. Abdelmotaleb Mohamed - Prof. Abdelrahman Sarhan - Prof. Alaa Fayed - Prof. Amrallah Abdelmonem
Prof. Emad Salah - Prof. Mohammed Farouk - Prof. Ramadan Mahmoud - Prof. Osama Abdelaziz
Prof. Wael Lotfy - Prof. Waheed yousry greer

Time	Subject	
15:00 - 15:20	Screening of CRC (Prof. Walid Al Ahmdy)	
15:20 - 15:40	Surgical mangement of metastatic colorectal cancer (Prof. Waheed yousry greer)	
15:40 - 16:00	Imaging of colon cancer (Prof. Sameh Saber)	
16:00 - 16:30	Selecting Precision Therapy for Patients With Wild Type RAS Metastatic Colorectal Cancer in 1L setting (Prof. Rasha Hagag)	
16:30 - 16:50	Making sense of adjuvant chemotherapy in colon cancer (Prof. Ola ElFarargy)	
16:50 - 17:10	Optimising the use of cetuximab in the continuum of care for patients with metastatic colorectal cancer (Prof. Ahmed ElNagar)	
17:10 - 17:40	Leading the way: New standard of care in 3L mCRC Speaker (Prof. Shereen ElShorbagy) Moderator (Prof. Ahmed Obaya)	

VENTRALIGHT™ ST Mesh

featuring Sepra® Technology

Sepra® Technology

- An extensively studied barrier with more than 10 publications and used clinically since 2007.
- Unique hydrogel barrier swells to minimize tissue attachment to the visceral side of the mesh¹
- Bioresorbable PVA fibers reinforce the integrity of the hydrogel barrier by binding it to the polypropylene mesh
- The hydrogel barrier resorbs within 30 days providing visceral protection during the critical healing period.²

It begins with a hydrogel barrier.
It ends with a strong, long-term repair.

Proven Sepra® Technology in a Low Profile, Lightweight Mesh

Efficient:

- Low profile design facilitates ureteral deployment and mechanical fixation
- Easily cut to customize shape and size

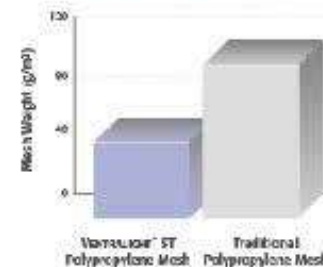

Effective:

- Uncoated lightweight monofilament polypropylene allows for complete tissue ingrowth with a low percentage of contraction³ for a strong repair
- Hydrogel barrier minimizes tissue attachment to the visceral side of the mesh
- Lightweight polypropylene mesh may lead to decreased patient discomfort⁴

Proven Technology:

- Hydrogel barrier is based on Sepra® Technology
- Lightweight monofilament polypropylene
- Both materials have been used in general surgery for years with demonstrated clinical success

THE VENTRALIGHT™ ST polypropylene mesh is approximately 50% lighter than traditional polypropylene mesh

2nd OncoZag Conference

17:40 - 19:00

SESSION 4: GYNECOLOGICAL CANCER

"We are speaking the same language"

Chairpersons (alphabetical):

Prof. Ahmed Amer - Prof. Ahmed Barakat Waley - Prof. Ahmed Raafat - Prof. Amira Hany - Prof. Ashraf Nasr
Prof. Basel Refky - Prof. Doaa Mandour - Prof. Mohamed Ramadan - Prof. Nashwa Nawar

Time	Subject
Gynecological cancer management	
17:40 - 18:00	Contemporary management of endometrial cancer with egyptian adoption (Prof. Hussein Abdeldayem)
18:00 - 18:20	1ry surgery vs neoadjuvant chemotherapy in advanced ovarian cancer (Prof. Basel refky)
18:20 - 18:40	Cervical cancer management who and how (Prof. Nemaat Hegazy)
18:40	Dinner
